Anne Hannan Joins the RACE Team

RACE Coastal Engineering is pleased to announce that Anne Hannan has joined the **RACE** Team as Office Manager. Anne recently sold her sailing magazine business, *WindCheck*, which she had run since 2002. Prior to that, Anne was in human resources for large pharmaceutical companies. This past experience lends itself well to Anne's role in marketing, business development and human resources here at **RACE**.

Through her work for *WindCheck*, as well as her passion for sailing, Anne's knowledge of **RACE's** recreational markets (yacht clubs, marinas, etc.) is exceptional. As the US Sailing CT/NY Regional Sailing Association Representative, Past Commodore of Housatonic Boat Club and Commodore of Eastern Connecticut Sailing Association, Anne volunteers to increase adult and junior participation in the region's boating events.

Anne grew up on Long Island Sound cruising and racing with her family. Anne has participated in Offshore Races and deliveries, including four Newport Bermuda Races, numerous Off Soundings Club series, J/24 Regattas and various regional regattas. Anne, her family and friends continue to participate in the Eastern Connecticut racing circuit, frostbites during the winters and kayaks the Housatonic River.
