

07/13/2015 RACE races in the 2015 Transatlantic Race

Devin Santa sails the seas...

RACE President, Devin Santa, sailed in the Rolex Transatlantic during the summer of 2015. Devin served as navigator aboard **CARINA** a 48' McCurdy and Rhodes designed sloop owned by Rives Potts.

The race started on June 28th in Newport Rhode Island and finished at Lizard lighthouse in England on July 13th with an elapsed time of 14 days, 11 hours, and 46 minutes. The race saw amazing conditions with strong westerly winds propelling the racers swiftly to England.

CARINA set an all-time speed record of 21.7 knots which says a lot for a boat that has previously circled the globe and sailed in three other Transatlantic races.
